

As now presented, Applicant's claims define the novel bent metal glazing bead that secures or holds the panel/glass to the mullion and provides its own finished look with strength and stability required for a glazing system.

REMARKS

Conclusion

The application is considered in good and proper form for allowance, and the Examiner is respectfully requested to pass this application to issue. If, in the opinion of the Examiner, a telephone conference would expedite the prosecution of the subject application, the Examiner is invited to call the undersigned attorney.

Respectfully submitted,

James B. Muskal, Reg. No. 22,797
